FOR JUNE 1 RELEASE

Rüdiger Trenkle Joins GGE Chile SpA

WASHINGTON, DC, USA JUNE 1, 2009 — GeoGlobal Energy LLC (GGE), a strategic geothermal investment and development company, is pleased to announce that Rüdiger Trenkle will join the company in the role of General Manager for GGE Chile SpA. Mr. Trenkle joins an elite team of management, including Greg Raasch, Robert Tucker, and Michael Van Vleck, whose combined 80 years of experience in the geothermal industry make them leaders in the exploration, development and operation of geothermal resources.

“We are very pleased to welcome Rüdiger to the GGE Chile team,” said Greg Raasch, a Managing Director of GeoGlobal Energy LLC. “Rüdiger brings extensive construction and management experience leading projects from their preliminary stages to revenue-generating operations, and we are confident that he will be a key player in the continued growth and success of GeoGlobal Energy Chile.”

Formally trained as a civil engineer, Mr. Trenkle has worked in a variety of management roles in the infrastructure concession and construction industries. His international experience includes project management in Europe, Asia and Latin America, spending the past seven years working as CEO of the Túnel San Cristóbal Concession in Santiago, Chile, which is a derivative of HOCHTIEF, one of the largest construction companies in the world. Prior to that Mr. Trenkle worked in a diverse group of companies, including the Metro Medellín Project in Colombia, the Advanced Cargo Centre in Kuala Lumpur and Dyckerhoff & Widmann AG in Nicaragua.

“It is an honor to join the distinguished management team at GGE Chile,” said Trenkle. “Chile has the greatest development potential of any country in Latin America. With our recent discovery at Tolhuaca, I am excited to be part of such a large and important project as GGE Chile.”

About GeoGlobal Energy LLC

GeoGlobal Energy LLC (www.GeoGlobal-Energy.com) is a privately-held, geothermal investment and development company focused on the worldwide development of geothermal resources. GGE's experience covers all aspects of geothermal power exploration, development and operations. The company's management has participated in the exploration, development and/or operations of more than half of existing geothermal power projects. GGE has offices in Washington, DC, Santa Rosa, CA, Santiago, Chile and Munich, Germany. The company was formed with significant backing from New Zealand's Mighty River Power, one of the largest geothermal energy providers in New Zealand.
